

Getting Started Guide

Synchronized by verse. Award-winning audio.
Book marking at a touch. Original music score.
Full RSV-CE Bible text. Live EWTN content.

Part 1: Getting Started

EWTN main menu

The Main Menu

When you open the EWTN App for the first time, the EWTN menu will open by default. To access the menu from the Bible simply select the EWTN icon button at the lower left hand corner. (As shown in the example below)

Bible

Live Streams

Program Schedule

Video on Demand

Audio on Demand

EWTN News

Bible

When selecting the Bible you will be taken directly in the RSV-CE Bible by default to Mark 1:1.

Live Streams

Access Live streaming EWTN Video/Audio content from around the world right on your device LIVE!

Program Schedule

See when your favorite EWTN show is playing next, based upon your time zone.

Video on Demand

Watch previously aired EWTN content by selecting the Video on Demand button.

Audio on Demand

Watch previously aired EWTN content by selecting the Audio on Demand button.

EWTN News

Get access to current and breaking news through the EWTN News network.

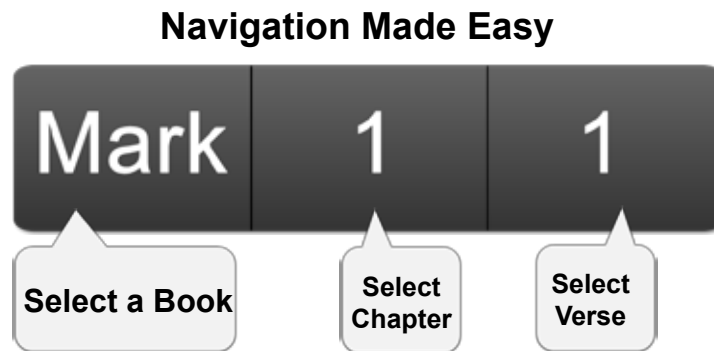

Part 2: The Toolbar

Start with the toolbar

The Toolbar

When you open the Bible for the first time, the navigation toolbar appears with the book of Mark as the default.

(As shown in the example below)

Contents Menu

When touching the contents menu tab at the top center of your screen, the books of the Bible will appear.

(As seen in the image on the left)

Gen Selecting

Select a book of the Old Testament or New Testament, then select the chapter and verse/s.

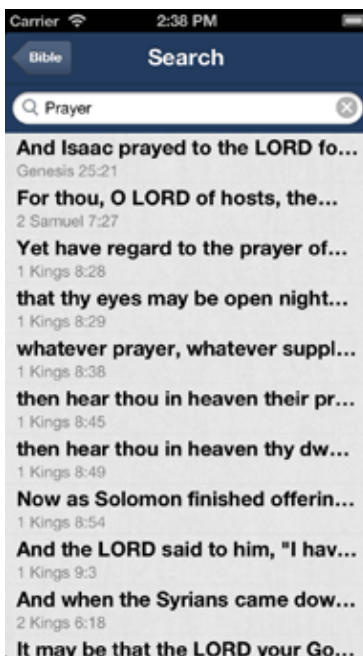

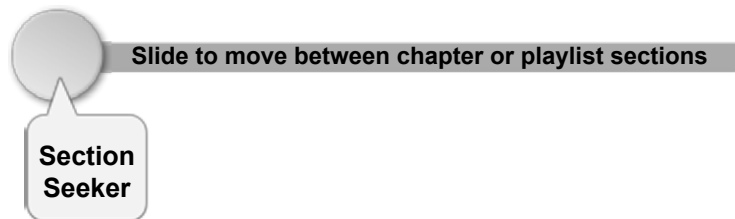

(As seen in the image on the left)

Part 3: Hearing and Searching

Playing audio and searching text

Truth and Life Audio

Listening to the Truth and Life dramatized audio has never been easier. Simply select a verse/s or a chapter, then touch the play icon. As the audio plays, the text will be bolded in sync with the audio.

Searching

To search the Bible, select the contents tab, then enter a phrase or word into the search field at the top of your screen. You will get an instant result from across the RSV-CE Bible.

Part 4: Gestures

Swiping and pinching options

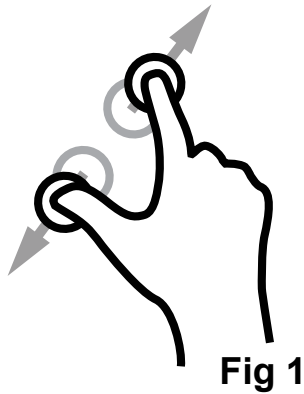

Fig 1

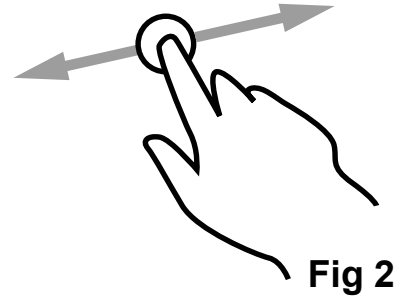

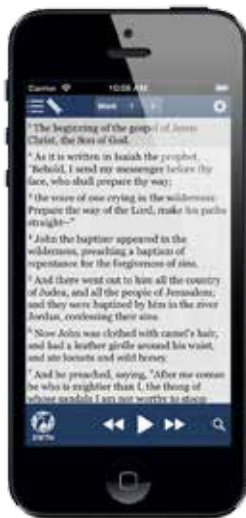

Fig 2

Fullscreen

Expand your reading space by pinching outward. (shown in Fig 1 above) By doing this, the bottom toolbar and the top data bar will disappear. See the Before and After comparison below.

Next Chapter

When in the Bible, quickly move to the next or previous chapter of the book by swiping left or right. (as seen in Fig 2 above) When in multicolumn mode, double tap to move to the next or previous chapter of the book.

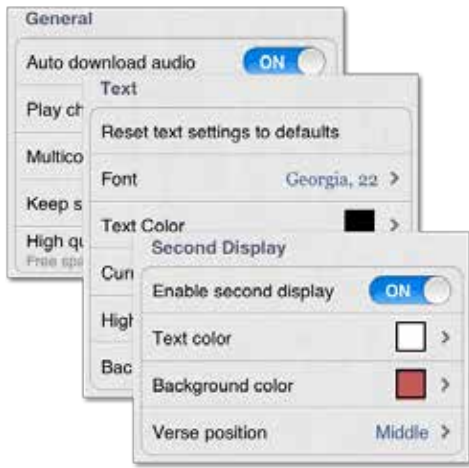

Before

After

Part 5: Customizing and Playlists

Custom viewing and playing

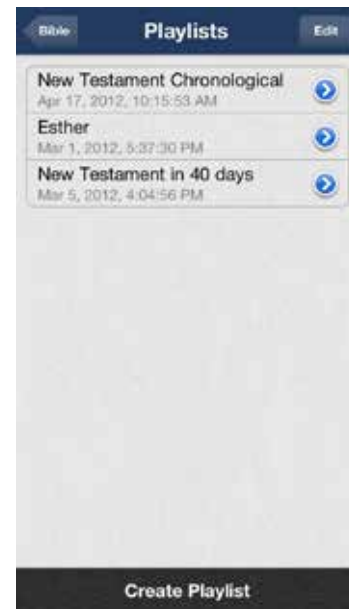

Customizing

Customize your reading experience by tapping the “gear” icon at the top right of your screen. From there, tap settings to expand your reading and listening options (As seen in the example on the left)

Playlists

Personalize your reading selections by tapping the Playlists tab at the top left of your screen. Then choose from one of the provided Playlists or create your own by tapping “Add Entry”.

(As seen in the example below)

Add entry

Part 6: Contents & Bookmarks

Managing contents and Bookmarking

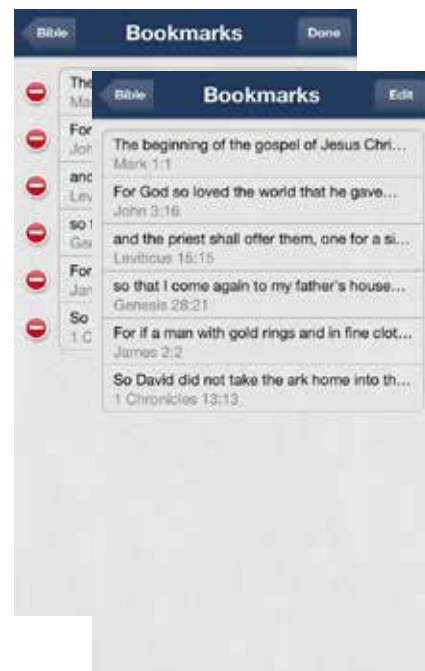

Contents

When accessing the contents menu by tapping the “gear” icon, you will be able to manage the purchase of your content. You can purchase a select book of the Bible or just the Old or New Testament. At anytime, you may download all or part of the audio. (As seen in the example on the left)

Bookmarks

Simply select a verse/s that you want to bookmark, then tap the flag icon at the top left hand corner of your screen. By tapping edit in the upper right hand corner you can rearrange, rename, and edit your bookmarks. (As seen in the example on the right)

Part 7: AirPlay

Streaming to your TV and Devices

Streaming to your TV

Easily stream scripture to your TV by using an AirPlay supported device such as an Apple TV.

How to stream scripture to your AirPlay device

Step 1: Double tap the home button when in the app.

Step 2: Swipe the bottom toolbar to the left until the AirPlay icon appears in the toolbar.

Step 3: Press the AirPlay icon to select the device for displaying text. Once the device has been selected switch the mirroring option on. (As seen in Figure 1 below)

Step 4: Enable the second display in the settings menu in the app. (As seen in Figure 2 below)
